Summary

Aspiring Software Engineer with hands-on experience in developing AI-powered applications and full-stack web solutions. Proficient in Java, Python, SQL, JavaScript, React.js, and FastAPI, with knowledge of Machine Learning, Deep Learning, Computer Vision, and OCR. Experienced in building intelligent systems, RESTful APIs, and responsive web applications using modern development tools and technologies.

Education

Canara Engineering College — Mangalore, Karnataka
B.E. in Information Science and Engineering ***CGPA - 7.96*** — *2023 – 2027*

Sri Venkataramana Pre-University College — Kundapura, Karnataka
Pre-University Course (PCMC) ***Percentage - 86.5%*** — *2021 – 2023*

Projects

AI-Based Blueprint Analysis for Intelligent House Color Visualization | *Python, OpenCV, React.js* **2025**

- Developed an AI-powered blueprint analysis system using Computer Vision and OCR to automate wall, room, and structural element detection.
- Designed a responsive React interface for interactive interior and exterior house color visualization, improving user experience and design preview efficiency.

DiaProXAI: Diabetic Foot Ulcer Screening with Multi-Disease Interaction Analysis | *Python* **2026**

- Developed **DiaProXAI**, an AI-based diabetic foot ulcer screening system for detection, severity classification, and segmentation using ResNet50, U-Net, TensorFlow, and OpenCV.
- Integrated multi-disease complication analysis (neuropathy, poor circulation, and infection) with Grad-CAM and SHAP for explainable predictions, supporting early screening and clinical risk assessment.

Mental Wellness Bot | *Python, FastAPI, NLP, React.js* **2025**

- Developed an AI-powered chatbot using Natural Language Processing to provide personalized mental wellness support.
- Designed a scalable FastAPI backend and React frontend to enable real-time conversations with an intuitive user interface.

Skills

Languages: Java, SQL, JavaScript, HTML5, Basic Python
Frontend: React.js, HTML5,
Backend: FastAPI, Node.js, RESTful APIs
Database: MySQL, MongoDB
Tools: VS Code, Git, GitHub, Linux, Docker, Jupyter Notebook
Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Computer Networks

Certifications & Achievements

- Participated in **XYPHERIA-2026**, a 24-hour National-Level Hackathon organized by Alva's Institute of Engineering & Technology.
- Completed the **Green Skills & Applied AI for Climate Action Bootcamp**, focused on AI-enabled sustainability and climate action, supported by 1M1B Foundation and Microsoft Elevate.
- **Programming in Java** – NPTEL, IIT Kharagpur.
- **AI for Beginners** – HP LIFE.
- **Microsoft Excel: The Complete Excel Data Analysis Course** – Udemy.
- **Git, HTML, JavaScript, and C Programming** – IIT Bombay.
